The Masport MSV Genius 4'n'1 lawnmower is the only mower in the country with a chipperchute. This grunty machine is an innovative development in the experience of lawn mowing because it does so much more than just cut grass! The double-blade system catches like a conventional mower, sidethrows with the patented Smartchute and mulches by naturally recycling re-cut clippings and feeding them back into your lawn. It also shreds branches up to 35mm in diameter and turns them into mulch!
