## Historic engines on show at Karaka

VINTAGE engines, antique mowers and historic aircraft will come to life in an interactive experience to help raise funds for the Karaka Museum on Sunday, March 28.

The Karaka Vintage Day, hosted by The Kar-

aka Historical Society and the Vintage Engine Restorers Auckland, will showcase machinery used to shape New Zealand last century.

Historical buffs will have the chance to view engines, equipment, clas-

sic cars, tractors and military vehicles. There will also be a vintage Tiger Moth aeroplane fly-over. Iconic Kiwi brand Masport will be represented with an impressive array of machinery, from milking machines to

lawnmowers and there's something for children too – horse and wagon rides.

Gates open at 9.30am for the Karaka Vintage Day on the corner of Linwood and Blackbridge Roads. Karaka.
