## Masport's calling

Masport has launched a nationwide search for former employees as it plans to celebrate its centennial later this year. A staff reunion will take place in Auckland on November 28, and a book recording the company's story will be published. The first draft is nearing completion, but there is still time for further contributions to the Masport story, newsletters and photographs of Christmas parties and other events over the 20 years since 1990 being of greatest interest. The company is best known as a maker of lawn mowers, but for a time manufactured hand grenades (for the WWII effort), and claims to have made New Zealand's first fridge.
