

MOW YOUR DAD AWAY WITH THE PERFECT FATHERS DAY GIFT!

If one of your childhood memories includes the fresh smell of newly-cut grass then it's likely to also feature your dad. Watching him mow the family lawn in his jandals, stubbies and toweling hat is a happy memory that many Kiwis share.

Father's Day is a time to remember our dad and thank him for all the special moments we've shared and now you can help him create more with iconic Kiwi brand Masport.

The **Masport MSV Genius 4'n'1 lawnmower**, featuring the Masport Chipperchute will put a smile on any dad's face. The only mower in the country with a chipperchute, this grunty machine is an innovative development in the experience of lawn mowing because it does so much more than just cut grass!

The Genius 4'n'1's double-blade system ***catches*** like a conventional mower, ***sidethrows*** with the patented Smartchute and ***mulches*** by naturally recycling re-cut clippings and feeding them back into your lawn.

This clever mower also ***shreds*** branches up to 35mm in diameter and turns them into mulch! As branches are shredded in the Chipperchute, they are fed back into the catcher which means your dad can simply put the mulch back into the garden. This is not only an eco-friendly way to re-use clippings but it means your dad will soon have a garden that's the pride of the neighbourhood!

You can also celebrate your dad's love of the outdoors with the ultimate barbeque from Masport's new portable range.
