

Masport®

PRESIDENT®

Outdoor Power Equipment

New Zealand 2022/23

With 112 years of innovation, Masport has grown to become a market leader for outdoor garden and lifestyle products. Synonymous with quality and reliability, the brand has been trusted by Kiwis for generations.

Masport is sold in over 45 countries worldwide, and continues to develop outstanding products.

EVERY LAWN IS DIFFERENT

Which is why Masport has developed a comprehensive range of lawn and garden equipment. Masport mowers have been designed to meet the needs of the heaviest lawn conditions and the longest mowing times, they are built to last.

Market Leading Consumer Warranties

We are committed to quality and performance. On offer is a full comprehensive consumer warranty, so you know exactly what is covered.

Masport branded push mowers featuring Briggs & Stratton, Kohler and AL-KO engines receive an industry leading 5 year comprehensive warranty on the entire lawnmower*. Delivering additional confidence and longevity for these lawnmowers.

OUR LAWNMOWER CHASSIS AND PARTS WARRANTIES

We offer you an impressive 10 year warranty on all aluminium chassis. If you prefer a steel chassis you'll enjoy a 5 year warranty*. Both aluminium and steel push mower options come with a 5 year warranty on ALL parts*.

LIFETIME CATCHER WARRANTY

Masport's High Density Polyethylene (HDPE) Plastic Catcher comes with a Lifetime Warranty.

BRIGGS & STRATTON STARTING PROMISE

RAPID START
20% EASIER STARTING

READY START
NO PRIME - NO CHOKE

Briggs & Stratton 500, 600, 700 and 800 series engines include a Starting Promise. If they don't start in line with the starting promise, return it to an authorised Briggs & Stratton engine service agent, and they will fix it for free*.

RapidStart™ engines will always start with a maximum of 5 primes and 4 pulls, or it is fixed for free*.

With ReadyStart™, there's no need to manually prime or choke the engine on your mower, even from a cold start. Now even the least experienced lawn mower user can confidently start their mower. This engine should start on one or two pulls, or it is fixed for free*.

*Conditions apply, see www.masport.co.nz for more information.

PRESIDENT®

PRESIDENT® RANGE
EXCLUSIVE TO STIHL SHOP

FEATURES

Only Authorised Dealers can carry Masport's President® series. They are the experts, advising you on the mower best suited to your needs, lifestyle or budget and deliver the kind of superior after sales service and advice you demand.

MASPORT BLADE SYSTEMS

Masport Quickcut® 2 Swingback Blade System

For superior cutting, mulching and catching performance, Masport mowers are fitted with unique blade cutting systems. The Masport Quickcut® blade is a top quality, specially designed blade system for cutting and mulching.

Masport 2 & 4 Swingback Blade Disc System

This blade system runs 2 or 4 swing back blades suitable for catching and mulching applications and is fitted on selected Masport President® catching and mulching models.

Masport Quadcut® 4 Swingback Blade Disc Cutting System

A specially designed four blade disc system, great for catching due to increased airflow.

Swingback Blade Feature

All these blade systems have a swingback feature, designed to protect the crankshaft from damage should the mower hit a solid object.

WHEELS

Masport's adjustable dual bearing wheels make the mower easy to push, with a threaded axle and nut, the wheels can easily be adjusted if they become loose after significant use. These wheels are made of polyethylene and designed to last. They have been vigorously tested for 600+ hours to ensure quality and durability.

CUTTING HEIGHTS

Push lawnmowers have a range of cut heights, from 10mm -70mm (0.4" - 2.75"). Height can be adjusted in one simple lever movement which is much faster than systems that require each individual wheel to be adjusted.

COMBO 2'N1
Catch and mulch options on these mowers.

COMBO 3'N1
These mowers have catch, mulch & side discharge options.

MASPORT HANDLE SYSTEMS

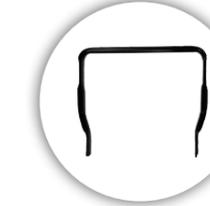

PVC Grip

For added comfort during operation

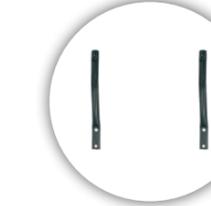

Soft Grip

For superior comfort and less vibration during mowing

One Piece Lower Handle

Reinforced lower 'U' handle for added strength

Two Piece

Stub handle with no middle bar for easy catcher access

A RANGE OF CHASSIS SIZES TO SUIT YOUR NEEDS

High-arch design

Allows airflow created from the blades to draw the grass upwards for multiple cut cycles before flowing into the catcher, creating enhanced mulching and catching performance.

420MM (16.5") CHASSIS

- Smaller cutting chassis for smaller lawns or tricky grass areas
- Easy to manoeuvre

460MM (18") CHASSIS

- High-arch design
- Single Mowzone (left side)

485MM (19") CHASSIS

- High-arch design
- Wider cutting width
- Dual Mowzone®

540MM (21") CHASSIS

- High-arch design
- Wider cutting width
- Dual Mowzone®

530MM (21") UTILITY CHASSIS

- Wider cut
- Specially designed Side Discharge chassis
- Strong and reliable for demanding conditions

THE PRESIDENT® RANGE

The President® Range is our premium mower series, packed with multiple features making lawnmowing easy.

MOW N' STOW®

Masport and Briggs & Stratton have designed a concept to make storage easier and more efficient. The Masport crafted exclusive handle system folds upright and then back on itself to create a sturdy base. The Briggs & Stratton designed engine tips backwards up to 110° without any fuel or oil leakage and is completely safe. Mow the grass, stow the mower - save significant shed space!

HANDLE LIFT SYSTEM

The Handle Lift System allows you to quickly and easily access the catcher (or Smartchute® system). Simply step on the foot pedal and lift the handle. Once the handle is returned to the operating position, it will lock in firmly providing responsive handling. It also reduces storage space.

SELF PROPELLED

Let the mower do the work. These models are fitted with a self drive system. All you need to do is squeeze the self propelled bail to the handle to propel the mower forward. This reduces pushing effort making mowing quicker and easier!

MASPORT DUAL MOWZONE®

With the blade coverage extending beyond the wheel width on both sides, the mower can cut closer to walls, kerbs, and fences, giving a cleaner finish to your lawn.

SMARTCHUTE®

Mow without the catcher and avoid messy grass clumps. The Masport patented Smartchute® will side discharge a clean spread of clippings as you mow to leave your lawn looking wonderful. Just engage the unique feature and begin mowing.

MOWER STARTING

Zone Start

The conveniently positioned starter cord eliminates the need to bend all the way down to pull-start, reducing the risk of back strain.

REAR DISCHARGE

With the rear discharge chute, the mower can be used effectively without a catcher. It is designed to work with Masport's unique 'high-arch' housing and blade systems which generate great airflow. The grass is spread across the full width of the chute and directed downward.

MULCHING

When you mulch there is less weight to push and no stopping to empty the catcher. The high-arch chassis design and the special blade means it also naturally recycles your grass by re-cutting the clippings and feeding them back into your lawn. You will save on watering and lawn fertilisers, as well as time.

ELECTRIC START

Briggs & Stratton's InStart® & Integrated InStart® lithium-ion electric start engines take the guessing game out of starting your lawnmower. No more priming, choking or pulling the rope. These engines combine the power of petrol and the starting reliability of lithium-ion battery technology.

CONTRACTOR SERIES

BUILT TOUGH, MADE TO LAST

Great gardens and professional looking landscapes demand equipment that is hardworking and reliable.

GT AGILITY PRO 3 SPEED COMMERCIAL TRANSMISSION

A commercial grade, all metal, constant mesh, oil lubricated, cone clutch gearbox featuring precision bearings to the shafts. Designed for commercial applications, it provides reliability and durability. Ground speeds at 3200rpm are: 1st - 3.74 km/h, 2nd - 5.11 km/h, 3rd - 6.63 km/h, providing the perfect speed-to-job ratio demanded by contractors and homeowners with large yards.

STEEL REAR DISCHARGE CHUTE

Designed to work without a catcher or mulch plug, the rear discharge chute will spread the grass across the full width of the chute and direct the cut grass toward the ground. This allows the user to mow at any height without the need to stop mowing to empty a catcher, reducing mowing time and running costs, plus recycling the cut grass.

BOLT IN AXLES

The front axle is held firmly in place with steel bearing plates bolted directly to the chassis, which also securely retains the plastic axle pivot bush tight. The rear axle is bolted directly to the chassis through the rear bearing chassis, providing a strong fix to the mower.

ROBUST HANDLES & HEAVY DUTY CONTROLS & CABLES

Large diameter and heavier gauge upper and lower handles withstand the heavy forces applied to provide extra durability. The lower handle has additional bracing, reducing any lateral movement.

The heavy duty control and cables are extremely robust and resilient to breakage and wear, providing greater longevity.

PROFESSIONAL CAST ALUMINIUM WHEELS & PRECISION BEARINGS

Professional grade, heavy duty, cast aluminium 8" front & 9 1/4" rear wheels with synthetic rubber tyres are extremely tough and are designed to operate under commercial conditions.

Each wheel is complemented by dual 6202 precision sealed bearings, making the mower easy to push, virtually maintenance free and long lasting.

LARGE CAPACITY DACRON CATCHER

The double lined Dacron catcher with dust cover holds 80L. The fabric catcher improves airflow maintaining catching performance, while the dust cover directs airflow downwards, reducing dust updraft for the operator.

BUMPERS

A front bumper and engine guard offer protection to the cutting chassis, front axle and engine. These bumpers also provide a valuable lifting handle and tie down point to secure the mower.

Warranty and Disclaimer Information:

All Masport products carry a manufacturer's warranty. Please refer to your warranty card supplied with each product for details and conditions for specific models.

This brochure supersedes all previous Masport President® range brochures. Product specification, colours and prices are subject to change without prior notification. Not all models may be stocked at all stores.

Whilst care has been taken in the preparation of this document, Masport is constantly improving and updating its product range, therefore model specifications may vary and should be checked at time of purchase.

Masport products are covered by the following design registrations:

405399, 407916, 407917, 411355, 411354, 417631, 418171,
407915, 407913, 411353, 414788, 414789, 414790, 414791, 414792,
and patents: 330634, 570911, 589942/590235, 605098, 605114.
